## Wins

Match at least 3 symbols on consecutive reels, beginning at reel 1 or reel 6, to achieve a win. Wins pay from left to right and right to left. 6 of a kind wins only pay from left to right. Pays are made according to the pay table. Pay table can be found by clicking information. Only the largest win combination for each symbol is awarded. Multiple symbols can form win combinations per spin. Wins are made and presented according to the players currency.

## How To Calculate Wins

To calculate a ways to win value, first count the number of matching symbols on each reel. Multiply these numbers together to get a total 'ways' value. Count the total number of reels the symbol is matched across and check the value of this number of symbols in the pay table - e.g. a winning symbol across 4 reels will pay according to the '4' value in the pay table. Multiply this value by the total 'ways' value calculated first.

## How To Play

Select a bet size and press spin to begin.

## Randomisation

The reels are spun with a fair and equal chance for each stop position by a certified random number generator.

## Return to Player

The theoretical return to player for this game is 94.16%.

## Maximum Win

The maximum win from a single game is capped at the lower of \$140000 or 5000x the total bet.

## Technical

Malfunction voids all pays and plays. The English version of these rules settle all disputes.

## Respins

When a win is achieved a respin is awarded. All reels that were involved in the win will grow in height by 1 symbol before each respin. Reels can grow to a maximum height of 6 symbols each. After all reels reach 6 symbols tall respins can still be awarded, but reels will no longer grow in height. Respins continue until no new wins are formed. All reels will reset back to their original height at the end of each spin.

## Mystery Doors

Mystery Doors can land anywhere on reels 2-5. Mystery Doors will always reveal Wild symbols or Coin symbols. Wild symbols can only land as a result of Mystery Doors. Wild symbols substitute for all symbols except Bonus symbols, Mystery Doors and Coin symbols. Wins involving Wild symbols as a result of Mystery Doors will award a respin.

## Coin Symbols

Coin symbols pay their prizes as a times bet value. Coin symbols can hold the following prizes - 1, 2, ,5, 10, 25, 50, 100, 250 or 500 times base bet. Being awarded a Coin symbol prize does not award a respin. A regular ways win must occur.

## **Free Spins**

3 Bonus symbols trigger 6 Free Spins. Bonus symbols can land anywhere. A maximum of 6 free spins can be triggered from the base game. During Free Spins reel heights do not reset between spins. If Coin symbols are revealed through Mystery Doors in Free Spins reels 1 and 6 will be closed and all Coin symbols in view will expand and replace every position on the reel they have landed upon. If more than one Coin symbol is on a single reel their values will first be added together before they expand and replace. After they expand and replace all Coin symbols in view will award their prizes as a times bet value. At random a bee may appear during Free Spins and choose one symbol in view on reels 2-5. When this happens reels 1 and 6 will be closed and the chosen symbol will expand to cover every position on the reels it is present on. Expanded symbols will pay anywhere according to the Free Spins Symbol Expansion payable. Expand and Replace Coin symbols and Symbol Expansion do not award a respin during Free Spins. A regular ways win must occur. Free Spins will end when no spins remain.
