See the payable for details. Earn 1 follower per Bonus symbol that appears on the reels. As you level up, you unlock new Bonus symbols that award 2 or even 3 followers.

Cleopatra Free Spins Bonus

The ***Cleopatra Free Spins Bonus*** is triggered by getting three or more Bonus scatter symbols anywhere on the reels.

Choose your Bonus Map: Alexandria, Nile River Valley, or the Pyramids of Giza. Not all Bonus Maps are available at all levels. All Bonus Maps have the same expected payback with one exception. On Levels 7-8, your best choice is the Pyramids of Giza if you trigger the Bonus with 6 or more followers.

Start the bonus with 5 free spins and a 1x multiplier. Your number of followers is determined by the number and type of triggering Bonus symbols. Bonus symbols award the number of followers shown on the symbol. On reel 5 the Bonus symbols may show 1, 2, or 3 followers, so the bonus begins with between 3 and 7 followers.

On your chosen Bonus Map, place your followers in any number of locations. You may choose to spread out your followers among many different locations to win an assortment of different awards, or you may choose to place your followers on the same location to win the same award

multiple times. Any strategy of placing your followers is allowed, but all strategies have the same expected payback.

Once all followers are placed, each location reveals its award. Possible awards include:

- A number of free spins (up to 30 spins)
- A multiplier for your free spins (up to 5x)
- A number of credits (up to 30 times your total bet)
- A last spin multiplier (up to 50x)
- A number of Super Spins (up to 10 spins)

Not all award types and award values are available at all levels. You receive each location award once for each follower placed on that location. For example, if you place 3 followers on a location that awards 10 free spins, you would win 30 free spins. In that way, many big awards are possible. Any free spin multipliers you win replace your current free spin multiplier of 1x. Credit awards are multiplied by your total bonus triggering bet.

Play out your free spins at the free spin multiplier earned in the Bonus Map and at the same number of lines and line bet as the triggering game. The last spin multiplier is a multiplier for the last free spin only and replaces the previous free spins multiplier. A Super Spin is a super-rich free spin with large stacks of 2x Wild symbols. Super Spins are played after all regular free spins complete and use the same multiplier as the previous free spins multiplier, as well the same number of lines and line bet as the triggering game. Super Spin and last spin multiplier features are not available in the same bonus. The bonus cannot be retriggered.

Rules

Misuse or malfunction voids all pays and plays.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far left reel.

Only the highest winner is paid on each payline. Line wins are multiplied by the line bet on the winning line. Coinciding line wins on different paylines are added.

Only the highest scatter win is paid per scatter symbol.

Scatter wins are independent from line wins and are added to the total amount paid.

The Bonus symbol showing 2 followers appears on reel 5 only in the base game after the player has achieved level 3.

The Bonus symbol showing 3 followers appears on reel 5 only in the base game after the player has achieved level 5.

Wins are shown in currency.

In some jurisdictions, regardless of bet size, there is an award cap on any single transaction. See the payable for details. A transaction includes the results of the *Free Spins Bonus* plus the outcome which launched the bonus. If the award cap is reached in the bonus, the bonus ends immediately, even if there are remaining free spins.

Additional Information

Expected Payback

In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent. The odds of getting any particular outcome are always the same.

The odds do not vary based on prior outcomes, bet size, balance size, time of day, day of week, etc. For example, if the top award is won on a given play of the game, the chances of winning the top award on the next play are exactly the same. Likewise, prior losses do not change future odds.

The expected payback reflects the theoretical return across a very large number of plays by numerous players over an extended period of time. The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.
