Game Features

Jackpot Bonus Feature

When regular wild symbols land only on reels 2, 3 and 4, it may trigger the Jackpot Bonus feature. Then, select from the 12 gold coins until three matching Jackpot symbols are revealed to

win the mini, minor, major or grand jackpot. Playing with bigger bets, increases your chances of winning bigger jackpots.

The regular Wild substitutes for all symbols including the scatter except for the enhanced Wild symbol.

Each time a regular Wild appears, it adds coins to the pot, and then at random, it triggers the Jackpot Bonus feature with the chance to win one of four jackpots!

Golden Symbols

Four of the five symbols have both regular and golden variations. Playing with higher bets activates more golden symbols on the reels which also increases the number of enabled Jackpots and the chances of winning the special high multiplier.

1/8	 The Golden Symbols section displays four distinct symbols: a golden frog sitting on a pile of coins, a golden turtle with coins around it, a golden fish swimming over coins, and a stack of four golden bowls. Below these is a separate image of three golden coins with red ribbons.	x1

Payout rules in Features

Free Spins are played at the same bet amount as the round that activated the Free Spins.

Free Spins wins are added to any initial wins.

How the progressive amounts are calculated:

Each progressive jackpot increases incrementally every time a bet is placed. The increment is added to the base progressive jackpot amount, which is a fixed multiplier of the total bet. When a jackpot is won, the progressive jackpot resets back to the base amount.
